District VARIOUS \_\_\_\_\_

WHEREAS, Texas Transportation Code, § 545.351 prohibits operation of a vehicle on the public roads at speeds greater than are reasonable and prudent under the circumstances and existing conditions; and

WHEREAS, Transportation Code, § 545.352 establishes prima facie reasonable and prudent speed limits for various classes of vehicles on various categories of public roads, streets and highways; and

WHEREAS, Transportation Code, § 545.353 empowers the Texas Transportation Commission (the "commission") to alter those prima facie limits on any part of the state highway system as determined from the results of an engineering and traffic investigation conducted according to the procedure adopted by the commission; and

WHEREAS, the Texas Department of Transportation has conducted the prescribed engineering and traffic investigations and studies of those segments of the state highway system shown on the attached Exhibit "A," and has recommended that the commission establish and order the respective speed limits listed in Exhibit "A" as the maximum reasonable and safe speeds for the involved highways;

NOW, THEREFORE, IT IS ORDERED that the commission finds and determines that, the speed limits shown on Exhibit "A" are the maximum prudent and safe speeds for the indicated segments of the state highway system; and the executive director is directed to proceed with the installation of appropriate signs posting those limits.

IT IS FURTHER ORDERED that a provision of any prior order by the commission which is in conflict with a provision of this order is superseded to the extent of that conflict.
