The UNIFIED TRANSPORTATION PROGRAM (UTP) of the Texas Department of Transportation (department) is a 10-year plan that authorizes project planning and development, and is submitted to the Texas Transportation Commission (commission) for approval on an annual basis.

Transportation Code, §201.103 requires the commission to plan and make policies for the location, construction, and maintenance of a comprehensive system of state highways and public roads.

Transportation Code, §203.002 requires the commission to lay out, construct, maintain, and operate a modern state highway system, with emphasis on the construction of controlled access highways, and to plan for future highways.

Pursuant to Transportation Code, §201.602, the department conducted a public hearing on December 19, 2002, to receive testimony concerning the highway project selection process and the relative importance of the various criteria which the commission uses for project selection decisions. Minute Order 109171, dated February 27, 2003, approved the project selection process, which included comments and responses resulting from the public hearing.

Pursuant to Transportation Code, §21.108, the commission, with the advice of the Aviation Advisory Committee, prepares a multiyear aviation facilities capital improvement program. Exhibit G contains project information from the 2004-2006 Aviation Capital Improvement Program, as recommended by the Aviation Advisory Committee at its September 12, 2003 meeting and is being simultaneously approved with the 2004 SMP.

In order to align the UTP with the simplified budget strategies outlined in the 2003-2007 Strategic Plan, the department has divided the UTP into two documents: The Statewide Mobility Program (SMP) and the Statewide Preservation Program (SPP). The SMP is part of the Build It budget strategy and contains all of the department's categories which enhance the transportation system.

IT IS THEREFORE ORDERED by the commission that the 2004 SMP as shown in the following exhibits is hereby approved. It is understood that all previously approved projects with CONSTRUCT authority will retain this authority in the 2004 SMP.

- Exhibit A Highway Construction Programs Policy and Restrictions
- Exhibit B Allocation Program Amounts for Category 5 - Congestion Mitigation and Air Quality Improvement, Category 7 - Surface Transportation Program, Metropolitan Mobility/Rehabilitation, Category 8 – Surface Transportation Program, Safety, Category 10 – Miscellaneous, Category 11 – District Discretionary
- Exhibit C Category 2, Metropolitan Area Corridor Projects
- Exhibit D Category 3, Urban Area Corridor Projects
- Exhibit E Category 4, Statewide Connectivity Corridor Projects
- Exhibit F Category 12, Strategic Priority
- Exhibit G Aviation Capital Improvement Program

IT IS FURTHER ORDERED that:

1. The executive director is hereby authorized to develop the projects listed in the exhibits to the level of authority indicated for each project to include any necessary agreements, right of way acquisitions, utility adjustments, and relocation assistance, subject to the policies of the department and all applicable federal and state laws governing the acquisition of real property.
2. Pursuant to Transportation Code, §222.052, the commission may accept financial contributions from political subdivisions of the state for development of projects in the 2004 SMP.
3. The 2004-2006 Aviation Capital Improvement Program, as recommended by the Aviation Advisory Committee at its September 12, 2003, meeting is being simultaneously approved with the 2004 SMP. The executive director is hereby authorized to proceed with the development of these projects to include any necessary agreements.

Executive Summary

The inaugural Unified Transportation Program, Statewide Mobility Program (SMP) follows. This document encompasses funding strategies to enhance the existing transportation system and is part of the **Build It** budget strategy.

The SMP contains funding information on the following highway construction programs:

- **Category 2- Metropolitan Area (TMA) Corridor Projects**
- **Category 3- Urban Area (Non-TMA) Corridor Projects**
- **Category 4- Statewide Connectivity Corridor Projects**
- **Category 5- Congestion Mitigation and Air Quality Improvement**
- **Category 7- Surface Transportation Program (STP)- Metropolitan Mobility and Rehabilitation**
- **Category 8- STP- Safety**
- **Category 9- STP- Transportation Enhancements**
- **Category 10- Miscellaneous**
- **Category 11- District Discretionary**
- **Category 12- Strategic Priority**

The SMP also contains information regarding the **Aviation Capital Improvement Program (CIP)**.

The proposed and existing programming amounts are contained in the funding distribution summary which follows. These programs represent efforts to enhance the transportation system and build efficient, reliable transportation infrastructure.

INTRODUCTION

Planning for the Future

In August 2001, Texas Transportation Commission Chairman, John W. Johnson, published a report to Governor Rick Perry, the members of the Texas Legislature and all Texans, entitled "**Texas Transportation Partnerships**". That report established five goals to assist the department in building a new vision for Texas transportation and its infrastructure.

These goals were to provide:

- **Reliable mobility**
- **Improved safety**
- **Responsible systems preservation**
- **Streamlined project delivery**
- **Economic vitality**

Upon these goals, the **2003 – 2007 Strategic Plan** was developed. In an effort to streamline agency processes and make them easily understood by the public, simplified budget strategies, including outputs and efficiency measures, were proposed to the Legislative Budget Board.

These strategies include:

- **Plan It** 
- **Build It** 
- **Maintain It** 
- **Use It** 
- **Manage It** 

The highway programs should provide the structure to achieve many of the goals and output measures brought forward in the Texas Transportation Partnerships and the Strategic Plan.

What is the Unified Transportation Program (UTP)?

The Texas Transportation Commission (commission) and the Texas Department of Transportation (TxDOT) use the Unified Transportation Program (UTP) as TxDOT's ten-year plan to guide transportation project development and construction.

Why is the Unified Transportation Program (UTP) published?

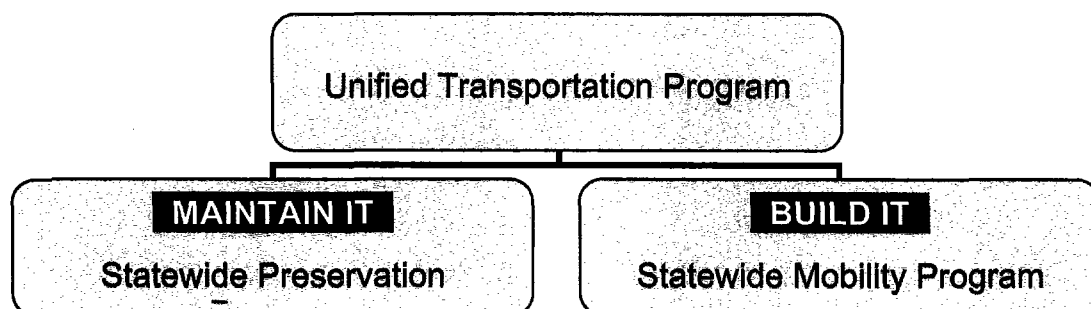

Federal transportation legislation, such as the Transportation Equity Act for the 21st Century (TEA-21), and its predecessor, the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991, specified the transportation systems on which certain federal funds can be used and defines the role of the Metropolitan Planning Organizations (MPO) in the planning and development of projects. This Federal transportation legislation required each designated Metropolitan Planning Organization to develop a Transportation Improvement Program (TIP) and the state to compile a Statewide Transportation Improvement Program (STIP) as a condition of securing federal funds for transportation projects. The projects listed in the STIP, when approved by the Federal Highway Administration (FHWA) and the Federal Transit Administration, are the only transportation projects that can utilize federal funds. Though TEA-21 expires in October 2003, the department anticipates any new transportation legislation to include the requirement of a STIP.

Therefore, the UTP, a ten-year financial plan, and the STIP, a three-year financial plan, are used as the backbone for project development on Texas' intermodal transportation network. The UTP is the commission's mechanism to authorize project development.

Continued Improvement

In order to align the UTP with the simplified budget strategies outlined in the 2003 – 2007 Strategic Plan, the department has divided the UTP into two documents:

- The Statewide Preservation Program (SPP)
- The Statewide Mobility Program (SMP)

MAINTAIN IT

Statewide Preservation Program (SPP)

This document encompasses funding strategies to maintain the existing transportation system and is part of the **Maintain It** budget strategy.

It contains information on two highway construction programs:

- Category 1- Preventive Maintenance and Rehabilitation
- Category 6- Structures Replacement and Rehabilitation

It also contains information on two highway maintenance-funding strategies:

- Routine Maintenance
- Contracted Routine Maintenance

These programs represent preservation efforts to maintain the existing transportation system and protect existing taxpayer investments.

BUILD IT

Statewide Mobility Program (SMP)

This document will contain information regarding the **Build It** budget strategy and contains the following highway construction categories:

- Category 2 – Metropolitan Area (TMA) Corridor Projects
- Category 3 – Urban Area (Non-TMA) Corridor Projects
- Category 4 – Statewide Connectivity Corridor Projects
- Category 5 – Congestion Mitigation and Air Quality Improvement
- Category 7 – Surface Transportation Program (STP) Metropolitan Mobility and Rehabilitation
- Category 8 – STP Safety
- Category 9 – STP Transportation Enhancements
- Category 10 – Miscellaneous
- Category 11 – District Discretionary
- Category 12 – Strategic Priority

The SMP also contains information regarding the **Aviation Capital Improvement Program**.

What are the contents of the SPP and SMP?

The SPP and SMP contain:

- an Executive Summary;
- this introduction;
- a listing of requirements for the use of the transportation funds along with the commission's policies;
- a summary of highway construction allocation program amounts;
- listings of project-specific highway construction projects the commission has approved for construction or development;
- and the Aviation Capital Improvement Program.

What is the difference in project-specific and allocation programs?

Allocation Programs- The allocation program is a fund management tool. The commission has delegated the responsibility for selecting projects and funds management to the lowest possible levels (the TxDOT districts and divisions). TxDOT manages most highway construction programs through allocations. Projects can be selected for development, developed and let to contract with each project's cost debited to the allocated funds available for that program. Most allocation programs consist of projects requiring relatively short development times and are intended to preserve the existing highway system. The allocation program process of developing projects allows TxDOT (both the districts and divisions) the flexibility to respond to modifications requested by the MPO and others without going back to the commission for every project change or cancellation, as long as the total allocation for that program is not exceeded.

Project-Specific Programs- the projects in these programs are listed in the UTP. The highway construction programs managed by TxDOT as project specific are major projects to improve mobility or safety. These major projects are usually associated with longer development periods; higher constructions cost and compete statewide for funds.

What does the Level of Authority mean?

Programming and Funding- An important factor in the project development and selection process is the amount of funds available to construct projects. In order for TxDOT's project development process to maintain its efficiency, projects must be selected years in advance of their actual funding and construction. A project must pass through many development steps including: researching proposed routes; studying environmental impacts; performing engineering surveys; holding public hearings; signing agreements with the counties or cities (if needed to fulfill state or

federal requirements); acquiring right-of-way; producing construction plans; and awarding construction contracts.

The actions listed above, and countless others, must occur in sequence to bring a project from an idea, to a reality. Therefore, a project must be programmed years in advance of the actual construction, to ensure that all development steps are completed at the appropriate time.

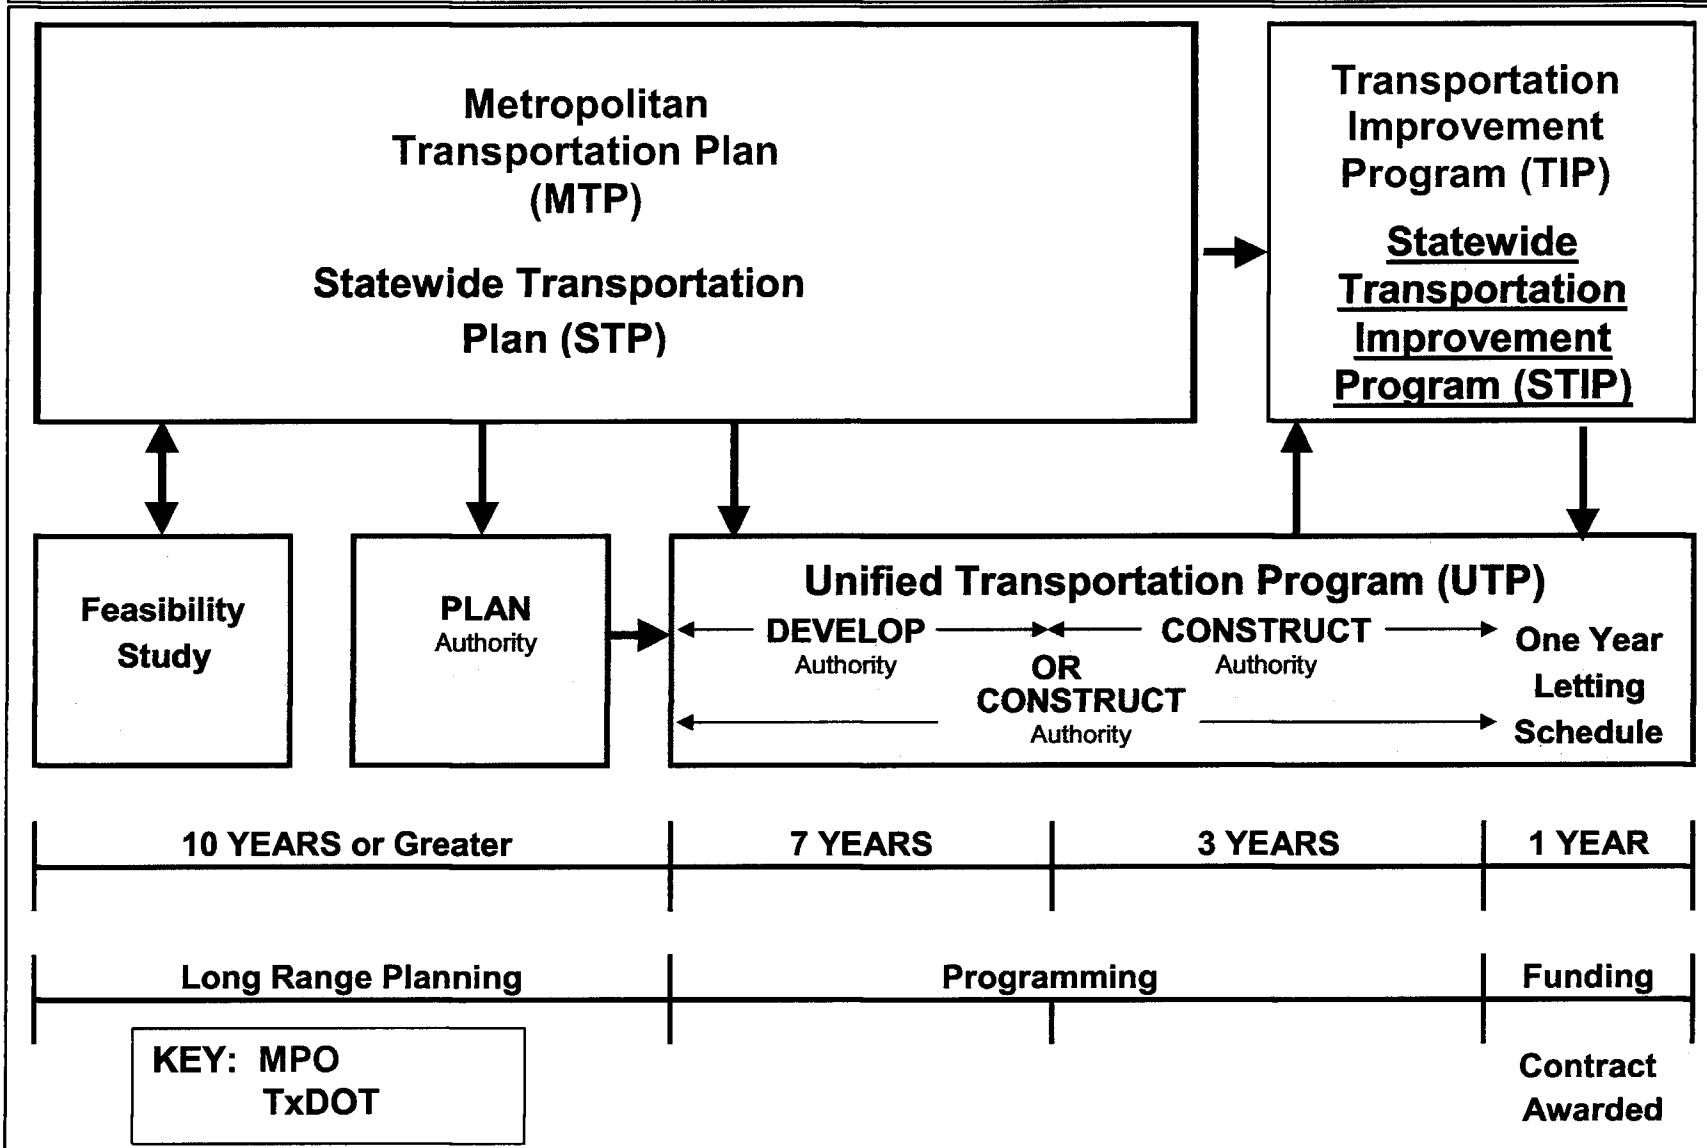

The steps required in project development have been organized into three levels of development authority listed below. The commission uses these levels of authority to authorize district resource expenditures to complete the development actions included in each level. A chart depicting the levels of authority, including approximate times allowed for each level, is located on **page VI** of this section.

PLAN (formerly Long Range Project)- Projects with this level of authority are in the initial stages of development. This development authority is reserved for mobility or other high capital cost projects where the route studies, environmental impact studies, and right of way determination can take a substantial amount of time. PLAN status authorizes the TxDOT districts to complete the necessary right of way determination including drafting the right of way map, studying routes, performing environmental impact studies, and holding public hearings. Projects with PLAN status are not listed in the UTP because their construction is planned beyond the ten years contained in the UTP.

DEVELOP (formerly Priority 2)- This level of authority authorizes the TxDOT districts to prepare the construction plans and acquire the necessary right of way. Districts should substantially complete project construction plans (geometric, structural, hydraulic and pavement design) and required right-of-way acquisition prior to moving to CONSTRUCT authority. The amount of projects in DEVELOP is constrained to **seven** years of anticipated future funding.

CONSTRUCT (formerly Priority 1)- This status authorizes the TxDOT district to complete the construction plans, perform the utility adjustments, and award a construction contract for the project in the scheduled Fiscal Year.

THE PROJECT DEVELOPMENT & PLANNING PROCESS

STATEWIDE PRESERVATION PROGRAM (SPP) SUMMARY OF CATEGORIES

MAINTAIN IT

CATEGORIES NUMBER AND NAME - DOCUMENT	PROGRAMMING AUTHORITY	USUAL FUNDING	ALLOCATION PROG (Yes/No) RESPONSIBLE ENTITY	RANKING INDEX OR ALLOCATION FORMULA	BRIEF SUMMARY, RESTRICTIONS, ETC
HIGHWAY CONSTRUCTION PROGRAMS					
1 Preventive Maintenance and Rehabilitation SPP	Commission allocation by formula. <u>Allocation program</u> to districts Projects selected by Districts.	Federal 90% State 10% Or Federal 80% State 20% Or 100% State	Yes, <u>Districts</u>	This category was created by consolidating old Categories 2, 3C, 4F, 7, 8A, 10A, 10B, & 14 from the 2002 UTP. The old formulas will continue to be used and the funding amounts consolidated until a new formula can be developed. The old formulas can be found in Exhibit A of the 2002 UTP at: http://www.dot.state.tx.us/moneymatters/moneymatters.htm?pg=utp	Preventive maintenance and rehabilitation of the existing State Highway System. The rehabilitation funds may be used for rehabilitation of the Interstate Highway System main lanes, frontage roads, structures, rehabilitation of signs, pavement markings, striping, etc. <u>The Transportation Planning and Programming Division</u> may approve the use of rehabilitation funds for the construction of interchanges and HOV lanes on the Interstate Highway System. Rehabilitation funds may not be used for the construction of new SOV lanes.
6 Structures Replacement and Rehabilitation SPP	Commission approval. <u>Project-specific</u> Selected statewide based on Texas Eligible Bridge Selection System (TEBSS) and Evaluated statewide for cost- benefit by the <u>Bridge Division</u>	Federal 80% State 20% Federal 80% State 10% Local 10% Or 100% State	No <u>Commission</u>	Texas Eligible Bridge Selection System (TEBSS) and Vehicle & train traffic, accident rates, vertical clearance, roadway characteristics	Replacement or rehabilitation of eligible bridges on and off the state highway system (functionally obsolete or structurally deficient). Replacement of existing highway-railroad grade crossings, and the rehabilitation or replacement of deficient railroad underpasses on the state highway system. Specific locations evaluated by cost-benefits derived index (benefits such as improved traffic flow, accident/fatality reduction. These funds may be used for preventive maintenance activities on bridges- requires commission approval.

HIGHWAY CONSTRUCTION PROGRAMS					
2 Metropolitan Area (TMA) Corridor Projects SMP	Commission approval. Project-specific Corridors selected statewide based on criteria to be determined. Projects scheduled by consensus of districts	Federal 80% State 20% Or 100% State	No <u>Commission</u>	As determined by the commission after considering recommendations of the category work group comprised of TxDOT and its transportation partners. See http://txdotutp.tamu.edu for more information.	Mobility and added capacity projects on major state highway system corridors which serve the mobility needs of the Metropolitan Areas (TMA) MPOs.
3 Urban Area (non-TMA) Corridor Projects SMP	Commission approval. Project-specific Corridors selected statewide based on criteria to be determined. Projects scheduled by consensus of districts	Federal 80% State 20% Or 100% State	No Commission	As determined by the commission after considering recommendations of the category work group comprised of TxDOT and its transportation partners. See http://txdotutp.tamu.edu for more information.	Mobility and added capacity projects on major state highway system corridors which serve the mobility needs of the Urban Areas (non-TMA) MPOs.
4 Statewide Connectivity Corridor Projects SMP	Commission approval. Project-specific Corridors selected statewide based on criteria to be determined. Projects scheduled by consensus of districts	Federal 80% State 20% Or 100% State	No Commission	As determined by the commission after considering recommendations of the category work group comprised of TxDOT and its transportation partners. See http://txdotutp.tamu.edu for more information.	Mobility and added capacity projects on major state highway system corridors serving the mobility needs of statewide connectivity between urban areas and corridors serving mobility needs throughout the state.
5 Congestion Mitigation and Air Quality Improvement SMP	Commission allocation. Allocation based on percent of population in non-attainment Areas. Allocation program to districts. Projects selected by MPO in consultation with TxDOT and <u>Texas Commission on Environmental Quality</u> .	Federal 80% State 20% Or Federal 80% Local 20%	Yes, <u>Districts</u>	Non-attainment area population weighted by air quality severity	Addresses attainment of national ambient air quality standard in the non-attainment areas (currently Dallas-Fort Worth, Houston, Beaumont and El Paso). Funds cannot be used to add capacity for single occupancy vehicles.
7 STP Metropolitan Mobility/ Rehabilitation SMP	Commission allocation. Allocation based on population Allocation program to districts Projects selected by MPO in consultation with TxDOT.	Federal 80% State 20% Or Federal 80% Local 20% Or 100% State	Yes, Districts	Population (2000 Census)	Transportation needs within metropolitan area boundaries with populations of 200,000 or greater. Projects selected by Metropolitan Planning Organizations (MPOs)

STATEWIDE MOBILITY PROGRAM (SMP) SUMMARY OF CATEGORIES

BUILD IT

CATEGORIES NUMBER AND NAME - DOCUMENT	PROGRAMMING AUTHORITY	USUAL FUNDING	ALLOCATION PROG (Yes/No) RESPONSIBLE ENTITY	RANKING INDEX OR ALLOCATION FORMULA	BRIEF SUMMARY, RESTRICTIONS, ETC
8 STP Safety - Federal Hazard Elimination Program SMP	Commission allocation. Statewide <u>allocation program</u> Selected statewide by federally mandated safety indices.	Federal 90% State 10% Or 100% State	Yes, <u>Traffic Operations Division</u>	Safety Improvement Index (SII)	Safety related projects - on and off state highway system. Projects are evaluated using three years of accident data, and ranked by Safety Improvement Index.
8 STP Safety - Federal Railroad Signal Safety Program SMP	Commission allocation. Statewide <u>allocation program</u> Selected statewide from prioritized listing.	Federal 90% State 10% Or 100% State	Yes, Traffic Operations Division	Railroad Crossing Index	Installation of automatic railroad warning devices at hazardous railroad crossings on and off state highway system, selected from statewide inventory list which is prioritized by index (# of trains per day, train speed, ADT, type of existing warning device, train-involved accidents within prior five years, etc.
9 STP- Transportation Enhancements SMP	Commission selection and approval. <u>Project-Specific</u> - approved by separate Minute Order. Recommended by local governmental entities. Committee review. Selected by commission as outlined in <u>43 TAC §11.204(c)</u> .	Federal 80% State 20% or Federal 80% Local 20%	No	Committee Recommendation	Projects above and beyond what normally is expected for transportation enhancements - twelve general activities as outlined in TEA-21. Projects recommended by local government entities, reviewed and recommended by committee, selected by Texas Transportation Commission.
9 STP- Transportation Enhancements Safety Rest Area Program SMP	Commission allocation. Statewide <u>allocation program</u> Selected statewide by the Maintenance Division.	Federal 80% State 20%	Yes, <u>Maintenance Division</u>	Selection criteria includes: travel corridors, spacing of rest areas, customer desired features, operational functions, and appropriate sizes.	Funds to be used to renovate, build, and relocate safety rest areas along the State Highway System. Small amount of program funds used for Safety Rest Area repairs. Other Federal-aid or state funds may be used for non-qualifying repair activities.

STATEWIDE MOBILITY PROGRAM (SMP) SUMMARY OF CATEGORIES

BUILD IT

CATEGORIES NUMBER AND NAME - DOCUMENT	PROGRAMMING AUTHORITY	USUAL FUNDING	ALLOCATION PROG (Yes/No) RESPONSIBLE ENTITY	RANKING INDEX OR ALLOCATION FORMULA	BRIEF SUMMARY, RESTRICTIONS, ETC
10 Miscellaneous - State Park Roads SMP	Commission allocation Statewide <u>allocation program</u> Projects selected by Texas Parks and Wildlife Department (TPWD).	State 100%	Yes, <u>Transportation Planning & Programming Division</u>	None, Selected by TP&WD	Construction and rehabilitation of roadways within or adjacent to state parks, fish hatcheries, etc. subject to Memorandum of Agreement between TxDOT and TPWD. Locations selected and prioritized by TPWD.
10 Miscellaneous - Railroad Grade Crossing Replanking Program SMP	Commission allocation. Statewide <u>allocation program</u> Selection based on conditions of riding surface.	State 100%	Yes, <u>Traffic Operations Division</u>	Condition of crossing's riding surface and cost per vehicle using crossing	Replacement of rough railroad crossing surfaces on the state highway system (approximately 140 installations per year statewide). Project selection based on conditions of the riding surface (highway, railroad and drainage) and cost per vehicle using the crossing.
10 Miscellaneous - Railroad Signal Maintenance Program SMP	Commission allocation. Statewide <u>allocation program</u> Contributions to maintain Signals.	State 100%	Yes, Traffic Operations Division	Number of crossings and type of automatic devices present at each.	Contributions to each railroad company based on number of state highway system crossings and type of automatic devices present at each crossing.
10 Miscellaneous - Construction Landscape Programs SMP	Commission allocation by formula. <u>Allocation program</u> to districts Projects selected by districts.	State 100%	Yes, <u>Design Division</u>	75% Vehicle miles traveled on freeways and expressways 25% Lane miles of freeway and expressways	New landscape development and establishment projects such as typical right-of-way landscape development and establishment, aesthetic improvement (primarily in urban areas), rest area/picnic area landscape development, and erosion control and environmental mitigation activities on the state highway system.

CATEGORIES NUMBER AND NAME - DOCUMENT	PROGRAMMING AUTHORITY	USUAL FUNDING	ALLOCATION PROG (Yes/No) RESPONSIBLE ENTITY	RANKING INDEX OR ALLOCATION FORMULA	BRIEF SUMMARY, RESTRICTIONS, ETC
10 Miscellaneous – <u>Landscape Cost Sharing Program</u> SMP	Statewide <u>allocation program</u>	State 100%	Yes, <u>Design Division</u>	This program will be handled on a statewide basis. The funding contribution will be determined for each project based on 50 percent of the total estimated project cost as proposed by the contributor.	Program allows the department to negotiate and execute joint landscape development projects through partnerships with local governments and support from civic associations, private businesses and developers for the aesthetic improvement of our state transportation system.
10 Miscellaneous – <u>Landscape Incentive Awards Program</u> SMP	Statewide <u>allocation program</u> Funding distributed to nine locations based on population.	State 100%	Yes, Design Division	This program will be handled on a statewide basis. The funding distribution to nine locations is based on the results of the annual <u>Keep Texas Beautiful Awards Program</u> .	Program allows the department to negotiate and execute joint landscape development projects in nine locations based on population categories in association with the Keep Texas Beautiful Governor's Community Achievement Awards Program. Awards recognizes participating cities or communities efforts in litter control, quality of life issues and beautification programs and projects.
10 Miscellaneous – Green Ribbon Landscape Improvement Program SMP	Statewide <u>allocation program</u> to the Districts with air quality, non-attainment or near non-attainment counties.	State 100%	Yes, Design Division	Allocations based on one-half percent of the estimated letting capacity for the TxDOT Districts which contain air quality, non-attainment or near non-attainment counties.	Program allows the department to address new landscape development and establishment projects within Districts that have air quality, non-attainment or near non-attainment counties. Projects to plant trees and shrubs to help mitigate the effects of air pollution.
10 Miscellaneous (Federal) SMP	<u>Commission approval to Participate.</u> Federal allocations.	Federal 100% Or Federal 80% State 20%	No	None Not Applicable	Federal programs such as Forest Highways, Indian Reservation Highways, Federal Lands Highways, and Ferry Boat Discretionary.

BUILD IT

CATEGORIES NUMBER AND NAME - DOCUMENT	PROGRAMMING AUTHORITY	USUAL FUNDING	ALLOCATION PROG (Yes/No) RESPONSIBLE ENTITY	RANKING INDEX OR ALLOCATION FORMULA	BRIEF SUMMARY, RESTRICTIONS, ETC
11 District Discretionary SMP	Commission allocation by formula. Allocation program to districts Projects selected by districts. Minimum \$2.5 million allocation to each TxDOT district in compliance with 78(R), HB1, VII, Rider 26.	Federal 80% State 20%, Or Federal 80% Local 20% or State 100%	Yes, <u>Districts</u>	This category was created by consolidating old Categories 4D, 4E, & 11 from the 2002 UTP. The old formulas will continue to be used and the funding amounts consolidated until a new formula can be developed. The old formulas can be found in Exhibit A of the 2002 UTP at http://www.dot.state.tx.us/moneymatters/moneymatters.htm?pg=utp	Miscellaneous projects on the state highway system selected at the district's discretion. A portion of these funds may be used off the state highway system.
12 Strategic Priority SMP	Commission selection. Project-specific	Federal 80% State 20% or State 100%	No	None, Selected by <u>Texas Transportation Commission</u>	Commission selected projects which promote economic development, provide system continuity with adjoining states and Mexico, increase efficiency on military deployment routes, or address other strategic needs as determined by the commission.
